

# POLLUTION RESEARCH

## VOL. 40 (3) : 2021

### CONTENTS

- 679–689 Dam Seepage Assessment Based on Combined Electrical Resistivity Tomography and Environmental Isotope Techniques at Machap Reservoir, Malaysia  
—*Lakam Mejus, Jamal Asfahani, Mohd Muzamil Mohd Hashim, Rahman Yaccup, Mohamad Syahiran Mustaffa and Geoffery James Gerusu*
- 690–697 Effect of Flocculation-adsorption Combination on the Purification of Surface Water: A Case Study of Sidiyacoub Dam Water, Algeria  
—*T. Hadbi and S. Hamoudi Abdelamir*
- 698–708 Developing a Dynamic Data Base for Climate Change in Egypt (Robust Tool for Introducing Climate Change)  
—*Sherien Zahran, Khald Khireldien and Rowida Foad*
- 709–712 The Microbial Contamination and Water Quality of Lesser-Zab River in Kirkuk province  
—*Tawoos Mohammed Kamel Ahmed and Sarah Ahmed Hasan*
- 713–720 Silvofishery Model in Aquaculture and its Impacts to Ecological Status of Water Quality Environment  
—*Muhammad Musa, Sulastri Arsad, Rina Mariana Sagala, Evellin Dewi Lusiana and Luthfiana Aprilianitas Sari*
- 721–727 Evaluation of Radon Concentrations and Associated Annual Effective Dose from Drinking Water in Samawa City–South of Iraq  
—*Russel S. Mohammed and Abdulameer K. Farhood*
- 728–732 Noise Pollution, its Causes and Impacts on Urban Life: Bangladesh Context  
—*Farhana Helal Mehtab and Kudrat-e-Khuda (BABU)*
- 733–741 Sustainable Treatment of Waste Coconut Water from Copra Industry Using Microbial Desalination Cell (MDC)  
—*Renu Pawels and Sanju Sreedharan*
- 742–746 Adsorption of Cationic Dye Methylene Blue from Aqueous Solutions onto Biochar Derived from Kinnow (*Citrus reticulata* Blanco) PEEL  
—*Shreya Prajesh and Sarita Joshi*
- 747–756 Effectiveness of *Moringa oleifera* as a Natural Coagulant and Adsorbent in Leachate Treatment  
—*Erina Rahmadyanti, Ninik Wahyu Hidajati and Mas Suryanto Hadi Saputro*
- 757–759 Knowledge on Prevention of Mosquito Growth Among Adults  
—*Arumugam Indira and Katari Kantha*
- 760–765 Sludge Mass Determined as a Parameter for Selection of Coagulant-A New Approach  
—*Bhavya Kavitha Dwarapureddi, Manoj Kumar Karnena and Vara Saritha*
- 766–771 Sequestration of Zinc Ion Using Sugar Industry Residues: An Avenue to Envirosafe  
—*S. Karthika and N. Muthulakshmi Andal*
- 772–776 Optimum Maintenance Cost in Water treatment Plants  
—*P.B Vyas*
- 777–781 Effect of Preservatives and Pesticides on Mitotic Index of *Allium cepa* roots - Biological Model Experiment for Genotoxicity  
—*Jyotchna Gogoi, Karabi Das and Papia Dutta*
- 782–789 Detection of Microplastic Waste of Polyethylene Terephthalate (PET) in Seawater and Consumption Salt by Glycolysis  
—*Indang Dewata, Trisna Kumala Sari, Desy Kurniawati, Kasma Warni, Rahmi Aulia Meilindri, Reza Elvinda and Atikah Muthmainnah*

- 790–795 **Bio-monitoring of Heavy Metals Accumulation in Plants Growing at Kanchipuram Town, Tamilnadu**  
—*R. Sumathi and G. Sriram*
- 796–800 **Sugar Mill Industry Effluent as a Substrate for Polyhydroxyalkanoate (PHA) Production**  
—*Nitesh Kumar Saxena, Priyam Tyagi and Aarti Sharma*
- 801–808 **Reduction of Perchlorate by Fungal Species Isolated from Water Samples Collected from Southern Kerala**  
—*Ann M. George, K. B. Radhakrishnan and A. Jayakumaran Nair*
- 809–816 **Exploring the Adsorption Potential of Coal Fly Ash and Zeolite for Removal of Acid Violet 19 Dye and its Phytotoxicity Assessment**  
—*Riti Thapar Kapoor*
- 817–822 **Is the Covid-19 Pandemic Increasing the Microplastic Load in Our Environment?**  
—*Haritha T. Nair and P. Siddhuraju*
- 823–827 **Ecology of Biofuel Yielding Plant with Special Reference to *Jatropha Curcas* in Shimoga Dist, Karnataka, India**  
—*B. Anantha Nag, Neethu Patil, Arjumand Banu S.S., Raghavendra S.N., Raghu H.S. and E.T. Puttaiah*
- 828–834 **Prediction of Traffic Noise Pollution at a Heterogeneous Traffic Condition – A Statistical Analysis**  
—*Praba M. and N.K. Rajan*
- 835–841 **Windrow Composting as Municipal Solid Waste Stabilization-A Case Study in Chandigarh**  
—*Vishal Sharma*
- 842–847 **Spectrum Analysis for Noise Sources from Different Sound Level Zones Creating Low Frequency Noise Distribution**  
—*Dasarathy A.K. and M. Tamil Selvi*
- 848–854 **Assessment of Water Quality of River Mandakini for Drinking Purpose in Stretch of Chitrakoot Area**  
—*L.N. Gupta, B. Lal, M.K. Ahirwar and G.S. Gupta*
- 855–860 **Environmental and Health Impacts of Air Pollution: An Evaluation in Indian Context**  
—*Jinu Joseph*
- 861–867 **Nickel (0) Nanoparticles Catalyst for Effective Degradation of Carmoisine A in Aqueous Alkaline Medium by Using Hexacyanoferrate (III) Ions as a Reductant : A Kinetic Study**  
—*Shivani and Anjali Goel*
- 868–876 **Impact of Coal Mining on Airborne Particles Based on Real-time Data**  
—*Md Aurangzeb and Sudip Banerjee*
- 877–883 **Characterization and Categorization of Municipal Solid Waste of a Disposal Site: An Investigation for Scientific Management**  
—*Anil Nain, Rajesh Kumar Lohchab, Kulbir Singh, Mikhlesh Kumari, Jitender Kumar Saini and Paramjeet Dhull*
- 884–892 **Removal of Micro-pollutants Using Green Synthesized Nano Iron Particles by the Advanced Oxidation Process**  
—*Rashmishree K.N., S. Shrihari and Arun Kumar Thalla*
- 893–897 **Water Quality Assessment of Nainital Lake by Numerical Indices**  
—*Ajay Kumar Singh, Varsha, Amit Mittal, Satish Kumar and Pratul Raj*
- 898–902 **Influence of Regression Equation in Traffic Noise Pollution Prediction Model – A Case Study**  
—*Praba M. and N. K. Rajan*
- 903–909 **Ecological Risk Assessment Through Metal Mobility in Damsal Nala, Sukinda Chromite Valley of India**  
—*Niladri Sekhar Mondal, Anindita Chakraborty, Mathumma Sudarshan and Apurba Ratan Ghosh*
- 910–912 **An Exploratory Study of Green Practices in Star-rated Hotels**  
—*Ajit Bansal, Pranav Aggarwal, Ajay Sharma, Ravi Kant Sharma and Maharaj Krishen Koul*

- 913–917 Utilizing Copper slag and Construction Waste in Problematic Soil Improvement  
—*Bharath M.*
- 918–921 Synthesis of Silver Nanoparticles from Goat Urine (*Ajamuthra*) and Their Antifungal Efficacy Against *Colletotrichum Gloeosporioides*  
—*Raghu H. S., Raghavendra S. N., Malini B. P, Chaitra C, Ananth Nag.b, Arjumand Banu S. S, A.N. Rajeshwara and S. E. Neelagunad*
- 922–928 Trivalent Chromium Removal by Aqueous Two-phase Extraction With Chloride Ions as Extractant  
—*S.K. Suji and K.B. Radhakrishnan*
- 929–933 Degradation and Evaluation of Kinetic Parameters of Antipyrine in Buffer Solution by Cyclic Voltammetry  
—*Rajdeep Malik, Dushyant Gangwar and Jasvinder Kaur*
- 934–943 Comparison of Physical and Chemical Parameters of Raw Spent Wash Distillery Water Before and After Nano Filtration, With That of Reverse Osmosis Human Drinking Water  
—*V.A. Vijaya Geetha, V. Annamalai, V.N. Janakarajan, N. Bhuvaneshwari and Senthilkumar*
- 944–947 Amino Acids Production Through Human Waste Hair  
—*Paleti Nagarjuna, Sanjay Verma, Ashok Sharma and Sarita Sharma*
- 948–954 A Review on Application of Electroremediation Technique in Different Environmental Samples  
—*A. Ram Sailesh, Ch. Ramakrishna, K. Suresh Kumar, Shaik Riyazuddin and N. Srinivas*
- 955–960 Water Quality Analysis of Maan Stream (Himachal Pradesh), India  
—*Sandeep Kumar and Devendra Pal Singh*
- 961–968 Assessment of Ambient Air Quality and its Sources Around Hydropower Projects Using Hysplit Model and Air Quality Index in Alaknanda Basin, Garhwal Himalaya, India  
—*Bhim Chand, Jagdish Chandra Kuniyal, Pawan Kumar Thakur, Manish Kumar, Vaneet Jishtu, Dinesh Kumar Tripathi and Amar Deep*
- 969–977 Mathematical Optimization by Genetic Algorithms of Biostimulation in a Diesel-Gasoline Contaminated soil  
—*S. Ali Ahmed and D. Sadoudi-Ali Ahmed*
- 978–985 Antibiotics Separation from Pharmaceutical Wastewater Using Ceramic  $\text{TiO}_2$  Nanofiltration Membrane  
—*A.N. Ahmed, K.W. Abdulrahman and F.M. Mohammed*
- 986–994 Phytoremediation Potential of Elements by Weed Species Around Solid Waste Dumping Ground, Berhampur, West Bengal, India  
—*Sudipta Biswas, Soumendra Nath Talapatra and Phani Bhusan Ghosh*
- 995–1000 A Preliminary Study to Assess Heavy Metal Contamination in Water Resources of Chisamba Town, Zambia  
—*Kalirajan Arunachalam, Katungu Mutenda, Danny Banda, Munsaka Sian Kuku and Neha Sharma*
- 1001–1006 Analytical Approach to Optimizing the Design of Windrow composting plant  
—*Vishal Sharma*
- 1007–1012 Managing Food Waste in Hotels; Challenges and Opportunities  
—*Manzoor Nabi Naiko, Rameez Ahmad Mir, Shabir Ahmad Dar and Ashaq Hussain Najar*
- 1013–1020 Analysis of Various Implications of Covid-19 Affecting Daily Lives in India: An Overview  
—*P. Kethan Hothra, Madhuben Sharma, Akshi Kunwar Singh and V. Krishnakanth*
- 1021–1029 Carcinogenic and Non-carcinogenic Human Health Risk Assessment of Some Important Trace Elements in the Commonly Consumed Frozen Fish Fillets (*Pangasius hypophthalmus*) in Amman, Jordan  
—*Ala' Ali Ahmad Al-Subeihi*

- 1030–1034 Quantitative Separation of Metal Ions From Certain Multi-mineral Supplements Using Composite Exchange Material: Tin (IV) Tungstoselenate - 1, 10 Phenanthroline  
—*E. Laiq, S. Jabin and N. Shahid*
- 1035–1040 Effect of Dindigul Tannery Effluent on the Growth of Egg Plant *Solanum Melongena* (L). using Bioremediation Process  
—*Nazeema M. and Nirmala T.*
- 1041–1051 Assessment of Groundwater Quality and Statistical Analysis of Hydro Chemical Parameters in Cuttack City, Odisha, India  
—*Sanjaya Kumar Muduli, Narasimham Mangalampalli and Prakash Chandra Mishra*
- 1052–1058 Synthesis and Characterisation of Activated Carbon from Agricultural Waste  
—*Nethala Lalitha Kumari, Bhavisetti Lakshmi, Dandabattina Suneel Kumar and Duvvuri Suryakala*
- 1059–1064 Air Quality Parameters in the Indo-Gangetic Plain During COVID-19 Induced Lockdown  
—*Gaurav Kumar, Rahul Wadhvani, Monika Koul, Abhay K. Dwivedi and Ashok K. Ghosh*
- 1065–1073 Characterization and Biodecolorization of Azo Dye Using *Bacillus Kochii* Mh152512 from Textile Dye Effluent from Tamil Nadu  
—*P. Sampath, M. Jeevanantham, S. Ananda Raj, R. Felicia Roshini, U.K., Girija Desiha, Arunava Das and J. Bindhu*
- 1074–1077 Studies on Textile Effluent Affected Some Vegetable Crops and their Biochemical Parameters  
—*G. Priya, N. Aarthi and Vimala Bangarusamy*
- 1078–1085 Diatoms in Khor Al-Zubair Mudflats and Khor Abdullah Lagoons, Southern Iraq  
—*Maitham A. Al-Shaheen and Dawood S. Abdullah*
- 1086–1090 Assessment of Acute Toxicity and Histopathology of the Endosulfanin *Eriocheir hepuensis* Dai, 1991 (Crustacea: Brachyura: Grapsoidea: Varunidae)  
—*Amaal Gh. Yasser, Nada M. Al- Baghdadi and Murtada D. Naser*
- 1091–1095 Study of the Effect of Industrial Discharges and Wastes on Seasonal Crop Cotton Around Neemrana Industrial Area, Alwar (Rajasthan)  
—*R. N. Yadav and Sandeep Kumar*
