

POLLUTION RESEARCH

VOL. 41 (2) : 2022

CONTENTS

- 367–383 The Influence of Seasons on Metal Bioaccumulation and Oxidative Stress in Sentinel Organisms in South African Urban Forests
—*A Naudé, R.G. Snyman, J.L. Marnewick and J.P. Odendaal*
- 384–388 Removal of Ammonia Effluent from ABR by Constructed Wetlands
—*Bowo Djoko Marsono and Bieby Voijan*
- 389–396 Groundwater Impact Assessment for Irrigation Purposes in the Village of Shouira, West of Tal afar district, Iraq
—*Mohammed Hazim Sabry Al-Mashhadany*
- 397–403 Investigating the Pollution of Carbon Monoxide in Schools Near to Main Roads in Malaysia
—*Nasir Nayan, Mohmadisa Hashim, Yazid Saleh, Hanifah Mahat, Zahid Mat Said, Madeline Henry Luyan, Tibu Anak Nguga, Nurul Khotimah, Dewi Liesnoor Setyowati and Erni Suharini*
- 404–410 Isolation of Glycosides and Tannins Active Compound from *Eichhornia crassipes* (Water hyacinth) and the Study of the activity of their extracts and aquatic and ethanol extract as antimicrobial
—*Omar Tariq Al-Azawi, Mostafa Qahtan AL-Smail, Firas Adnan Hussein and Mohamad Mahmood Hamad*
- 411–415 Biosorption Characteristics of Hg(II) into BioFilm
—*Andi Kurniawan, Ion Tarsardo Sianturi, Abd Aziz Amin, Lutfi Ni'matus Salamah, Wresti Listu Anggayasti, Siti Mariyah Ulfa and Muhammad Musa*
- 416–439 Common Analysis Methods for Gaseous and Solid Contaminants Emitted from Different Pollution sources: A review paper
—*Qayssar Mahmood Ajaj, Helmi Zulkhaidi Mohd Shafri, Aimrun Wayayok and Mohammad Firuz Ramli*
- 440–444 Assessment of Radioactive Elements in the Ramu Nickel and Yandera Mining Sites of Papua New Guinea related to Radiation Pollution of the Environment
—*Kolkoma D., Pereira F. B., Jojo P. J. and Michael K.*
- 445–450 Evaluation of *Spirogyra* sp. as a Bioindicator of Heavy Metal Pollution in A Tropical Aquatic Environment
—*V. Chand and I. Vanavana*
- 451–456 Assessment of Btex Organic Pollution in the Air and Risks to Human Health in the Area of Domestic Waste Incinerators in Hai Ly Commune, Hai Hau District, Nam Dinh Province, VIETNAM
—*Vu Duc Toan and Nguyen Tien Dung*
- 457–466 Assessment of Air Pollution in Kurdistan Region of Iraq
—*Zanist Hama-Aziz*
- 467–473 A Suggestion for Sustainable Groundwater use on Intensive Arable Area in Semiarid Region
—*Young-Sik Ham*
- 474–480 Effect of Ammonia and COD to Sulfate Ratio on Treatment Performance of Concentrated Latex Processing Wastewater
—*Siriuma Jawjit and Warit Jawjit*
- 481–486 The Effect of Sarulla Natural Zeolite Modification on Enhancement of Pb(ii) and Cd(ii) Contaminant Adsorption
—*Jasmidi, Sri Adelila Sari, Hafni Indriati Nasution, Ratna Sari Dewi, Ahmad Nasir Pulungan, Seget Tartiyoso and Moondra Zubir*
- 487–493 Heavy Elements Accumulation in Tow Submerged Plants (*Najas marina* Land *Ceratophyllum demarsum*- Southern of Iraq)
—*Rehab Salim Khazaal Al-Atbee*

- 494–499 Abiotic Variables Influencing *Pseudomonas Aeruginosa*'s Survival in Two Moroccan Humid Zones (Seawater and Well Water)
—*Sofia Ghizlan Grohs, Amine Rkhaila, Mouhatti Saga, Saïd Oulkheir and Khadija Ounine*
- 500–508 A Study Towards the Realization of Green Technology in Urban Water Supply Sector with Life Cycle Assessment (LCA) Method and Fault Tree Analysis (FTA) Method
—*Nieke Karnaningroem, Mas Agus Mardiyanto, Geodita Woro Bramanti and Desy Risqi Anggraeni*
- 509–518 Assessment of Urban Wastewater Pollution Discharged by the Moroccan City of Kenitra at the Sebou river estuary
—*Youness Nizar and Mohammed Igouzal*
- 519–528 Study of Risk Minimization Utilization of Bottled Water by Consumers Using Hazard Analysis Critical Control Point (HACCP) and Extended Producer Responsibility (EPR) Methods
—*Mas Agus Mardiyanto, Nieke Karnaningroem, Adhitia Satria Pradana and Alysia Safi Damayanti*
- 529–537 The Important Role of Ag and Cu on Enhancing Dechlorination of 2,4-dichlorophenol by Ag/Cu/Fe nanoparticles: Performance study
—*Wenbin Zhang, Can Liu, Lanyu Liu, Jun Chen and Fei Gao*
- 538–543 COVID-19 Pollution and Tourist Behaviour
—*Shweta Kapure*
- 544–549 Biodegradation of High Molecular Weight Polycyclic Aromatic Hydrocarbon Chrysene by soil bacterial isolates
—*Nimisha Patel, Uzair Ahmed, Shazia Shaheen Mir, Asif Anas, Tanzeel Tanzeel, Heena Alim and Arif Ali*
- 550–556 Water Quality Index for the Assessment of Groundwater Quality in Palwal district, Haryana
—*Ritu Bir, Meenakshi Singh and Jakir Hussain*
- 557–568 Solid Wastes Generation at Various Zones of Universities Campus: Characterisation and Its Management Approaches
—*Kulbir Singh, Rajesh Kumar Lohchab, Paramjeet Dhull, Priti Kumari, Vishu Choudhary and Jyoti Bala*
- 569–575 Effect of Textile Industry Waste Water on Seed Germination and Plant Growth of Mustard
—*Savita Rani, Pooja, Nandni, Kashish Sharma and Shivi Choudhary*
- 576–581 Determinants of Seasonal Variations in surface ozone – A Study in Visakhapatnam City of Andhra Pradesh, India
—*Kavitha Chandu, Dharma Raju A., S.V. J. Kumar and Sudarshan Patro*
- 582–585 A Study on the Continuous Usage of Organic, Inorganic Persistent Pesticides in the Agricultural Fields in and Around Sirumalai Area with A Special Reference to the Impact on Ground Water and Soil
—*V. Senthilkumar, Haresh M. Pandya, V.A.Vijayageetha, A. Pandiyarajan and V.N. Janakarajan*
- 586–597 Biochemical Changes Induced by Flubendiamide (39.35% Sc) in Freshwater Fish, *Catla Catla* (HAMILTON, 1822)
—*S.K. Parveen, K. Veeraiah, G. Vani, M. Vijaya Kumar and Ch. Krishna*
- 598–602 Carbon Dioxide Evolution From Soil In Municipal Solid Waste Dumping Sites of Balasore District, India
—*Bibhuti Ranjan Panigrahy and S.C. Pradhan*
- 603–610 Workplace Exposure Monitoring and Morbidity Pattern of Workers Employed in Highway Toll Plaza
—*Sen S., Helan P., Ravichandran B. and Dhananjayan V.*
- 611–616 Elimination of Hexavalent chromium ion from Electroplating Industrial Wastewater using Locally Available Adsorbents
—*Vathsala M.N., S. N. Maya Naik, M. Manoj Kumar and Shankara*
- 617–624 Influence of Benthic Fauna on Hydrochemistry and Sediment in Sasthamkotta Lake in Southern Kerala, India
—*Munisha Murali S. and S. Sheeba*

- 625–630 **Impact of Habitat Quality Variations on Some Behavioural Aspects of Larvivorous Fish**
—*Kulkarni Rajender Rao, Juliana Silveira, Sheena Paul, Nandadeep Phaldessai, Shailesh Nair, Clara Rodrigues and Priyanka Naik*
- 631–636 **Protective Role of Resveratrol Against Oxidative Stress Induced by Aluminium and Fluoride in Rat Brain**
—*N. Chandra Shakar Reddy and K. Pratap Reddy*
- 637–641 **Assessment of Surface Water Fitness for Irrigation use near Bhuasuni Dumping Site, Bhubaneswar, Odisha, India**
—*Amarendra Harichandan, Kabir Mohan Sethy and Himansu Sekhar Patra*
- 642–648 **Effect of Various Process Parameters on the Performance of Earth-air Heat Exchanger (Eahe): A Review**
—*Vaishali Goyal, Arun Kumar Asati and Amit Arora*
- 649–653 **Utilization Possibilities of Infectious waste Plastic Materials Toward Environmental Sustainability**
—*L.D. Vijay Anand, C. Sowmya Dhanalakshmi, M. Mahendran, D. Hepsiba, S. Bhagavathi Perumal and P. Madhu*
- 654–659 **One way Analysis of Variance of Critical Parameters of on Site Sanitation System – A Case Study**
—*Shivendra B.T. Manoj Krishna and K.V. Shahaji Patil*
- 660–667 **Impact of Seasonal Variation on Underground Water Quality in BBN area, Himachal Pradesh, India**
—*Vishal Rana, Yogesh Kumar Walia, Divya Gautam and Vandana Sethi*
- 668–675 **GC MS Analysis of Petroleum Ether Extract of *Pterobryopsis pilifolia* (dixon) Magil to Identify Chemicals that Offer Antifeedant Properties in Bryophytes**
—*Meenu Mathew and Abraham Mathew*
- 676–690 **Assessment of Spatio-Temporal Variation and Potential Human Health Risk of Ambient Nitrogen Dioxide and Sulfur Dioxide around Industrial Area of Mundra, Gujarat Using GIS and AERMOD Model**
—*Rahul Singh, Chhavi Solanki, Rohit Singh and Subinoy Mondal*
- 691–695 **Ratio Derivative Spectrophotometric Monitoring and Phytoremediation of Pantoprazole**
—*Soma Mukherjee, Suparna Dhar, Subhankar Pathak and Monami Haque*
- 696–706 **Particulate Matter Emission Sources and Their Control Technologies**
—*Muhammad Asif, Rida Atizaz Ul Haq, Esha Gulfreen, Shafia Arshad, Muhammad Wasim Tasleem, Sehrish Rana Rajpoot, Sana Munir, Muhammad Waseem, Muhammad Asfand Yar, Malaika Sohail, Musavir Abbas, Kaneez Fatima and Maryam Maqbool*
- 707–717 **Assessment of Solid Waste Management Practices, Challenges and Improvement Strategies For Households and Waste Managers In South-South Nigeria**
—*S. I. C. Dibia, A. Avula, M. Boniface, A. O. Orji, M. O. Kalu, S. C. Eze-Ufodiama, A. Ibhafidon, O. K. Onyekwere, W. Yohanna, G. Azuonwu and T. E. Iwuagwu*
- 718–726 **A Review of Modern Technologies for Reduction of Dioxins and Furans from Flue Gas Emissions of Biomedical Waste Incinerators in Indian Perspective**
—*Sandeep Kumar Verma, N.B. Singh and C.N. Tripathi*
- 727–734 **Assessment of Solid Wastes in Different Areas of Khanyan, Hooghly, West Bengal, India**
—*Milita Roy*
- 735–738 **Process Optimization and Synthesis of Activated Carbon from Coconut Shell Using Phosphoric Acid**
—*D. Praveen Kumar, D. Ramesh, P. Subramanian, S. Karthikeyan and A. Surendrakumar*
- 739–740 **A Comparative Study of Rural and Urban Water Quality of Patna (Bihar) India**
—*S.K. Sinha*

- 741–752 **Constraints to Participation in Physical Activity During Covid-19 Pandemic: Environmental Implications in University of Nigeria Nsukka Campus Enugu State, Nigeria**
—*P. C. Ofili, T. E. Iwuagwu, A. N. Obayi, S. O. R. Ngwoke, R.C. Okechukwu-omeye, A. Ibhafidon, O. K. Oforka and S. C. Eze-ufodiama*
- 753–756 **Effect of Hydrothermal Temperature on Sawdust Hydrochar Production Produced Through Microwave-assisted Artificial Coalification**
—*P. Komalabharathi, P. Subramanian, D. Ramesh, S. Karthikeyan and M.R. Duraisamy*
- 757–766 **Adsorption of Pb (II) in Aqueous Solution on Activated Carbon Prepared from Animal Bones**
—*Guettaf Naima, Kaddour Omar and Ghezali Katia*
